CONTACTLESS HELP Campaign

Representative office of **TRANSGROUP SYSTEMS L.P.** in the Republic of Uzbekistan, donated an amount of 1,000,000,000 UZS to the Foundation's current account in order to organize a charity event to transfer targeted (to a plastic card) assistance to 1,000 women who got into a difficult financial situation due to quarantine. The list of Beneficiaries was formed by the Public Fund for Support and Development of National Mass Media and the Ministry of Internal Affairs of the Republic of Uzbekistan.

Proportion of provided aid divided by types

- Purchase of medicines in the amount of 297,464,060 UZS
- Payment for medical services in the amount of 701,796,136 UZS
- Other social assistance in the amount of 1,315,603,000 UZS

Seriously ill children, the elderly, persons with disabilities are the most vulnerable members of our society, because they need constant treatment and their immunity is always at risk.

We understand that it is very important to follow the precautions of quarantine measures, and we are confident that we will cope with the pandemic over time.

Special thanks to our volunteers and representatives from the regions, thank you for your labor of love! We express special gratitude to our patrons for such an active participation in good deeds.

Saxiy Qahramon (Generous hero) Promotion

An acute shortage of donated blood during quarantine threatened the condition of critically ill patients. Thanks to the close-knit work of specialists from the Republican Blood Transfusion Center, the team of EZGU AMAL Foundation and volunteers, a charity event *Saxiy Qahramon* was announced in the capital in April.

Specialists from the Republican Blood Transfusion Center promptly resolved the issue of the exit point, and the volunteers and Foundation staff drew up a schedule of trips to the districts, organized assistance in the form of personal hygiene products and hot meals for the staff of the exit point. A special group was created, where the action team gathered all those who were not indifferent, and, thus, coordinated donors and laboratory workers.

More than 500 people took part in the *Generous Hero* Promotion and about 200,000 ml of blood was collected.

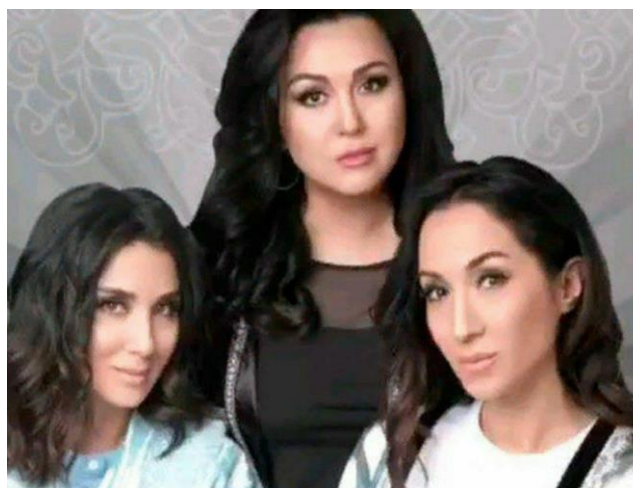

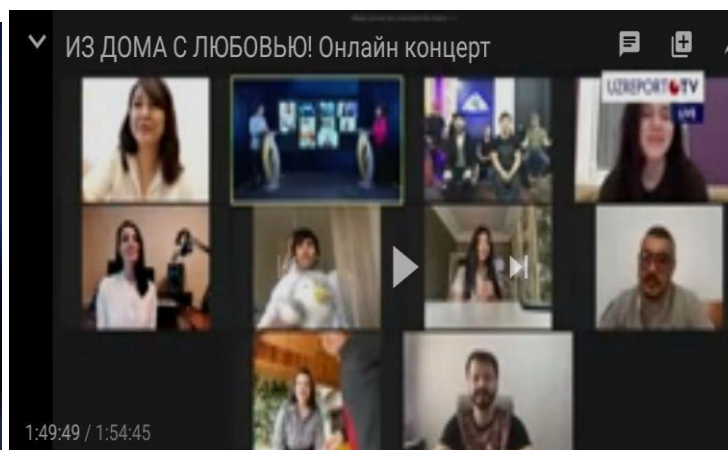

Online Charity Concert

Thanks to the efforts of *UzReport TV Channel* and *Great Silk Way Ltd. (UAE)* Production Center an online concert dedicated to medical workers and special services of Uzbekistan, who tirelessly serve the people in times of crisis, urging them to comply with quarantine measures taken by the state was organized.

The concert program, with a large number of mini-videos, blitz interviews, reports and stories on the topic of quarantine and the fight against the COVID-19 virus, was attended by popular foreign and Uzbek pop stars, honored artists of Uzbekistan. The stars acted through short feeds in the Zoom system via mobile reports from their homes, studios and apartments in self-isolation mode. The program included performers of the classical genre — opera singers, popular pop performers with well-known compositions in Russian, Uzbek and foreign languages.

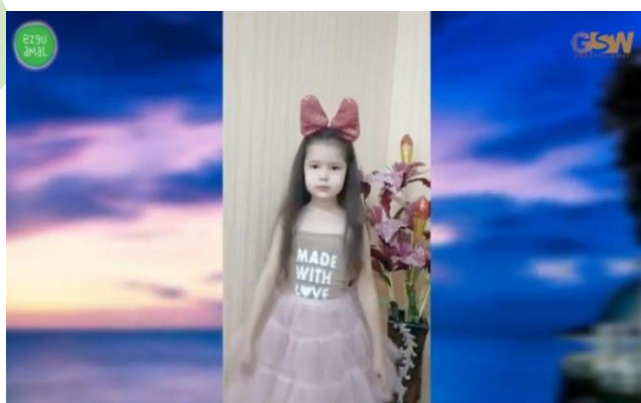

Online Concert CHILDREN MUST LAUGH for Children's Day

On the holiday of June 1, the first online children's concert *CHILDREN SHOULD LAUGH* was organized with the participation of talented children with hematological and oncological diseases, as well as their friends from candydance.uz.

The Foundation administration sincerely thanks the VOLUNTEERS for the project idea:

- author Andrei Ibragimov;
- director and clip maker Zhasur Shametov and his team;
- magic fairy Veronica Belyasheva

HOLIDAY FOR CHILDREN in quarantine

Thanks to the doctors, the team of the EZGU AMAL Foundation and the volunteers of the *Good Angels* group, the *MIRACLE DOCTOR* Campaign was organized.

The holiday was held on June 1 in the children's department of chemotherapy and radiology of the City branch of the Cancer Center.

In order to comply with all the rules for observing the precautionary measures of quarantine measures, the oncologists themselves became the kids' favorite super-heroes and congratulated their patients in the department.

Each gift donated from the Foundation's sponsors and volunteers was disinfected with antiseptic agents, whereas sweets and goodies for tea drinking were served after sanitizing them, too.

There are more kind people in this world, this mini-holiday proves it.

The doctors turned out to be so talented that children got a lot of pleasure from communicating with their favorite superheroes, and their parents were happy with the positive emotions that are so necessary for them.
